AUTUMN 2007

FALL IN LOVE: PEAR MENU TEMPLATE

Production Instructions: Print out 1 copy of this template on to plain white paper.

MAKES
3

Type out your menu text in an elegant, all capitals setting and print out 3 copies onto the same plain white paper, ensuring the text fits within 62mm x 42mm dimensions.

Carefully cut out your text boxes and glue into position on the pear template sheet, using the dashed lines as a guide. Clear, adhesive tape stuck to each side of the text box will minimise the edges showing on the finished copies.

Photocopy as many sheets as you require on to the heavy-weight paper stock of your choice.

With a pair of small, sharp scissors, cut around the outline of the pear shape making sure to trim inside the line so it is not seen on the finished tag.

Punch a hole just beneath the stalk of the pear. Finish by threading ribbon through the hole and tying the pear cutout together with a punched leaf placecard—hand written or calligraphed with your guest's name.
